

Hammer Travel COVID-19 Awareness Statement and Policies

Please read over the following COVID-19 awareness statement for information regarding policies, precautions and risks:

All travelers will be required to submit proof of being fully vaccinated by the trip's registration deadline or they will not be allowed to travel.

All travelers must be willing/able to wear a mask (covering mouth and nose) when required to. If a traveler is not willing/able to wear a mask, we ask that they do not register for a trip until masks are no longer required during the travel experience. If a traveler participates in a trip and refuses to wear a mask when required to, he/she will be taken off the trip and sent home without a refund, and will be responsible for any fees that may occur (airfare, fines, etc.).

To ensure the safety of participants, staff and others, Hammer Travel staff, volunteers and travelers will follow all safety requirements set by the CDC, States we are traveling to, and travel entities (airlines, hotels, theaters, etc.) including but not limited to; regular hand washing/sanitizing, wearing a mask that covers the nose and mouth when required, distancing in common areas, monitoring for and reporting signs and symptoms of COVID-19, and regular cleaning and disinfecting of surfaces.

Please note: we will not know if others in the area are vaccinated, therefore, it is possible participants come into contact with people who have not been vaccinated against the virus while at a destination.

Even though Hammer staff, volunteers and travelers will take all necessary precautions, it is still possible for someone to contract COVID-19.

In addition:

- All trip staff/volunteers are required to be fully vaccinated.
- We are equipping our trip leaders with hand sanitizer, antibacterial wipes, and tissues to assist them with precautionary measures.
- As an extra precaution, we are asking all travelers bring their own supply of masks, hand sanitizer, wipes and tissues. *(Please keep in mind TSA regulations: liquids need to be 3oz or less, and placed in a gallon sized freezer bag, or be placed in checked luggage).*
